

AGE RENEWAL & REJUVENATE PEPTIDE PROTOCOL

DESCRIPTION OF TREATMENT:

This rejuvenating facial treatment utilizes Viktorija DeAnn's advanced multi action peptide technology to address the visible signs of aging by supporting skin structure, resilience, and cellular renewal. Targeted peptides help soften the appearance of fine lines and wrinkles while promoting collagen and elastin support for improved firmness and elasticity. The protocol is designed to strengthen thinning, fragile skin, improve hydration and texture, and support slower cell turnover often associated with aging skin. With consistent treatments and supportive home care, the complexion appears smoother, more lifted, and refined, with enhanced plumpness, improved tone, and greater resistance to environmental stressors, revealing a healthier, more youthful looking appearance.

BENEFITS:

- Softens the appearance of fine lines and wrinkles while supporting smoother skin texture
- Promotes collagen and elastin support to improve firmness, elasticity, and visible lift
- Strengthens thinning and fragile skin to improve resilience and structural integrity
- Enhances hydration and barrier function to reduce dryness and roughness
- Supports cellular renewal to improve tone, clarity, and overall skin vitality
- Improves plumpness and skin response to environmental stressors for a healthier, more youthful appearance

PEPTIDE TYPE:

SUGGESTED TREATMENT PRODUCTS

- Balancing Cleanser
- Lactic 5% + Collagen
- Elastin Peptide
- Lift Peptide
- Procol Peptide
- Tone Peptide
- Pad Peptide
- Correct hp Peptide
- Repair Peptide
- Pepti-Eye Serum
- Hyaluronic Peptide Serum (Low)
- Pepti-Nano Mask
- Rejuvenator
- VIOpure HydraFirm Eye Cream
- Night Moisturizer or VIOpure Restorative Cream

HOME CARE SUGGESTIONS:

- Cleanse Phase Products
- Lactic 5% + Collagen
- Elastin Peptide
- Lift Peptide
- Procol Peptide
- Tone Peptide
- Pad Peptide
- Correct hp Peptide
- Pepti-Eye Serum
- Repair Peptide
- Rejuvenator
- Hyaluronic Peptide
- Pepti-Nano Mask
- Protect Phase Products

MODALITY SUGGESTIONS:

- Microneedling
- Microchanneling
- Nano infusion
- Ultrasound
- Oxygen infusion
- Microcurrent
- Radio frequency
- LED therapy
- Dermaplaning
- Cold therapy
- Holistic tools
- Cold plasma

STEPS OF TREATMENT

Pre-Cleanse: Thoroughly cleanse face and neck with Purifying Cleanser for 1-2 minutes. Remove with wet sponges or a steamed towel.

Cleanse: Thoroughly cleanse face and neck with Balancing Cleanser for 1-2 minutes. Remove with wet sponges or a steamed towel.

Exfoliate: Apply 4-6 drops of **Lactic 5% + Collagen** on esthetic wipe or in a small bowl. Using the esthetic wipe or fan brush, apply to face and neck and leave for 5-10 minutes for self-neuralization. Do not remove. **-OR-** Use professional exfoliating products of choice.

Peptide Treatment:

- Apply 4-6 drops of each **Restore Peptide** in Layering order (**Elastin Peptide, Lift Peptide, Procol Peptide, Tone Peptide, Pad Peptide, Correct hp Peptide, and Repair Peptide**) to face and neck until completely penetrated into skin. Make sure that each peptide serum is completely absorbed before applying the next peptide product.
- Apply 1-2 drops of **PEPTI-Eye Serum** around the orbital area.
- Apply 1 packet of **Hyaluronic Peptide Serum (Low)** to face and neck until completely penetrated into skin. (may use fan brush for application)

(Additional Restore Peptide Product may be utilized during the peptide treatment phase to address other specific skin conditions and concerns.)

Modality Suggestion: Techniques such as infusion treatments, oxygen infusion therapy, LED light therapy, microcurrent, gentle ultrasonic infusion may be incorporated at this time.

Nourish: Apply **PEPTI-Nano Mask** according to packaging instructions and adjust to facial contour. Leave on for approximately 10-30 minutes. Utilizing remaining serum in package by applying every 2-5 minutes with a fan brush. Remove mask and continue treatment.

Modality Suggestion: Holistic modalities such as facial rollers, cold globes, and mushroom massage tools may be used over the mask to enhance product penetration.

Peptide Treatment: Massage 1-2 pumps of **Rejuvenator** (level based on skin health) to face and neck until completely penetrated into skin.

(Some users of this product may experience minor tingling, which should subside shortly after application. If the sensation persists, please rinse and cleanse the face.)

Treat: Gently apply ½-1 pumps of **VIOpure HydraFirm Eye Cream** around the orbital area.

Moisturize: Apply 1-2 pumps of **Night Moisturizer** or **VIOpure Restorative Cream** to skin until completely absorbed.

Protect: Use professional SPF of choice.

CAUTIONS AND CONTRAINDICATIONS:

- Viktoria DeAnn is not responsible for contraindications arising from the use of exfoliants, sun protection products, devices, modalities, or protocols from other brands, nor from integrating outside products into treatment procedures.
- Peptides may overstimulate extremely compromised, highly inflamed, or medically fragile skin. Discontinue use if any signs of overstimulation or adverse response occur.
- Clients who are pregnant, breastfeeding, or under medical care for significant health conditions should obtain physician clearance before beginning treatment or using active formulations.
- If irritation or an adverse reaction develops, discontinue use immediately and remove the product from the skin.

DISCLAIMER

This information is intended to support professional estheticians in analyzing skin conditions and selecting appropriate topical products within their scope of practice. Because every individual's skin responds uniquely, these guidelines should not be interpreted as medical advice, diagnosis, or treatment recommendations. Estheticians should always consider a client's medical history, current medications, known allergies, and sensitivities when determining product suitability. Any concerns involving medical or pathological skin conditions should be referred to a licensed physician or dermatologist.
