

DRY & DEHYDRATED REPLENISH PEPTIDE PROTOCOL

DESCRIPTION OF TREATMENT:

This revitalizing facial treatment utilizes Viktoria DeAnn's hydrating peptide formulations to restore moisture balance in dry, dull, and dehydrated skin. Dull skin is often the result of an over corneofied, thickened stratum corneum caused by slowed cell turnover, which alters light reflection and obscures the healthy, living cells beneath the surface, reducing visible radiance. Targeted peptides work to reduce transepidermal water loss while supporting the skin's natural moisturizing factors for sustained hydration and improved suppleness. The protocol is designed to strengthen and rebuild the skin barrier, enhance elasticity, and improve overall resilience. With consistent treatments and supportive home care, the complexion appears smoother, brighter, and more luminous, revealing refreshed, comfortable skin with a healthy, hydrated glow.

BENEFITS:

- Replenishes hydration and reduces TEWL to improve skin comfort and moisture retention
- Supports the skin's natural moisturizing factors to restore softness, flexibility, and suppleness
- Strengthens and rebuilds the skin barrier to reduce sensitivity and reactivity
- Supports healthy cell turnover to address an over corneofied, thickened stratum corneum
- Improves rough texture, flaking, and dehydration lines for smoother, more refined skin
- Enhances elasticity and luminosity, revealing a brighter, healthier looking complexion

NEUROMODULATING

Tone Peptide

SUGGESTED TREATMENT PRODUCTS

- Balancing Cleanser
- Lactic 5% + Collagen
- Lift Peptide
- Tone Peptide
- Pad Peptide
- Repair Peptide
- Pepti-Eye Serum
- Rejuvenator
- Hyaluronic Peptide Serum Medium & High
- Pepti-Nano Mask
- VIOpure HydraFirm Eye Cream
- Night Moisturizer or VIOpure Restorative Cream

HOME CARE SUGGESTIONS:

- Balancing Cleanser
- Lactic 5% + Collagen
- Lift Peptide
- Tone Peptide
- Pad Peptide
- Hyaluronic Peptide
- Repair Peptide
- Pepti-Eye Serum
- Rejuvenator
- Pepti-Nano Mask
- VIOpure HydraFirm Eye Cream
- Night Moisturizer or VIOpure Restorative Cream

MODALITY SUGGESTIONS:

- Microneedling
- Microchanneling
- Nano infusion
- Ultrasound
- Oxygen infusion
- Microcurrent
- Radio frequency
- LED therapy
- Dermaplaning
- Cold therapy
- Holistic tools
- Cold plasma

STEPS OF TREATMENT

Pre-Cleanse: Thoroughly cleanse face and neck with **Balancing Cleanser** for 1-2 minutes. Remove with wet sponges or a steamed towel.

Cleanse: Thoroughly cleanse face and neck with **Balancing Cleanser** for 1-2 minutes. Remove with wet sponges or a steamed towel.

Exfoliate: Apply 4-6 drops of **Lactic 5% + Collagen** on esthetic wipe or in a small bowl. Using the esthetic wipe or fan brush, apply to face and neck and leave for 5-10 minutes for self-neuralization. Do not remove. **-OR-** Use professional exfoliating products of choice.

Peptide Treatment:

- Apply 4-6 drops of each Restore Peptide in Layering order (**Lift Peptide, Tone Peptide, Pad Peptide, and Repair Peptide**) to face and neck until completely penetrated into skin. Make sure that each peptide serum is completely absorbed before applying the next peptide product.
- Apply 1-2 drops of **PEPTI-Eye Serum** around the orbital area.
- Apply 1 packet of **Hyaluronic Peptide Serum (Med or High)** to face and neck until completely penetrated into skin. (may use fan brush for application)

(Additional Restore Peptide Product may be utilized during the peptide treatment phase to address other specific skin conditions and concerns.)

Modality Suggestion: Techniques such as infusion treatments, oxygen infusion therapy, LED light therapy, microcurrent, gentle ultrasonic infusion may be incorporated at this time.

Nourish: Apply **PEPTI-Nano Mask** according to packaging instructions and adjust to facial contour. Leave on for approximately 10-30 minutes. Utilizing remaining serum in package by applying every 2-5 minutes with a fan brush. Remove mask and continue treatment.

Modality Suggestion: Holistic modalities such as facial rollers, cold globes, and mushroom massage tools may be used over the mask to enhance product penetration.

Peptide Treatment: Massage 1-2 pumps of **Rejuvenator** (level based on skin health) to face and neck until completely penetrated into skin.

(Some users of this product may experience minor tingling, which should subside shortly after application. If the sensation persists, please rinse and cleanse the face.)

Treat: Gently apply ½-1 pumps of **VIOpure HydraFirm Eye Cream** around the orbital area.

Moisturize: Apply 1-2 pumps of **Night Moisturizer** or **VIOpure Restorative Cream** to skin until completely absorbed.

Protect: Use professional SPF of choice.

CAUTIONS AND CONTRAINDICATIONS:

- Viktorija DeAnn is not responsible for contraindications arising from the use of exfoliants, sun protection products, devices, modalities, or protocols from other brands, nor from integrating outside products into treatment procedures.
- Peptides may overstimulate extremely compromised, highly inflamed, or medically fragile skin. Discontinue use if any signs of overstimulation or adverse response occur.
- Clients who are pregnant, breastfeeding, or under medical care for significant health conditions should obtain physician clearance before beginning treatment or using active formulations.
- If irritation or an adverse reaction develops, discontinue use immediately and remove the product from the skin.
