

VIOPURE HYDRAFIRM EYE CREAM

DESCRIPTION

Viktorija DeAnn VIOpure HydraFirm Eye Cream is a nourishing, restorative formula designed to soothe, hydrate, and protect the delicate eye area. Enriched with bioactive ingredients, it helps shield the skin from environmental stressors while reinforcing moisture balance and barrier integrity. Its semi-occlusive formulation locks in hydration without heaviness, supporting lasting comfort and suppleness. This advanced cream works to improve firmness and elasticity, brighten uneven tone, and reduce the appearance of dark spots, fine lines, puffiness, and crepiness, leaving the eye area smooth, and visibly revitalized.

KEY ACTIVES

Phellinus Linteus Extract, Kigelia Africana Fruit Extract, Carrot Root Extract

FUNCTION

- Nourishes, soothing and hydrating skin protection
- Soothes and protects skin from environmental stressors
- Helps to improve skin firmness
- Evens and brightens skin tone
- Diminishes the appearance of dark spots and fine lines
- Semi-occlusive formulation

TARGETED SKIN CONCERNS:

- Dry and dull looking skin around eye area
- Dark circles and dark spots under the eye
- Puffy or baggy under eyes
- Crepiness or dry skin in eye area
- Visible wrinkles, and crow's feet around eye
- Post procedure skin

THE SCIENCE:

Phellinus Linteus, often referred to as the “Sanghuang” mushroom, is recognized in advanced bioactive research for its high concentration of beta-glucans, polyphenols, and adaptogenic compounds that support skin resilience. Through precision extraction, the most beneficial molecular fractions are isolated, those shown in in-vitro models to modulate cellular defense pathways and enhance antioxidant capacity. This refined Myco-Active fraction helps fortify the skin's natural barrier and maintain homeostasis when faced with environmental stress. By promoting balanced hydration and protective signaling, Phellinus Linteus extract contributes to a calmer, stronger, and visibly revitalized appearance of the skin.

PROFESSIONAL USAGE:

Following the Cleanse and Restore phases of treatment, apply 1/2-1 pump starting on the outside corner of the eye area working inward. Applying both under and above the eye. Avoid direct eye contact.

HOME USAGE:

Following the Cleanse and Restore phases of treatment, apply 1/2-1 pump starting on the outside corner of the eye area working inward. Applying both under and above the eye. Avoid direct eye contact. Use morning and night.

KEY ACTIVES:

Phellinus Linteus Extract - a medicinal mushroom known for its high levels of antioxidants, polysaccharides, and skin conditioning compounds. It helps reduce the appearance of redness and environmental stress by supporting the skin's natural defense mechanisms. Its rich beta glucan content promotes lasting hydration and strengthens the moisture barrier, making the skin appear more resilient, even toned, and visibly refreshed.

Kigelia Africana Fruit Extract - derived from the fruit of the African sausage tree, Kigelia Africana is prized for its skin tightening, soothing, and clarifying effects. It contains bioflavonoids, saponins, and phytosterols that support skin firmness and improve elasticity while offering antioxidant protection. Known for its traditional use in skin tonics, this extract helps visibly tone sagging or tired looking skin, enhance suppleness, and restore the look of natural lift and structure.

Carrot Root Extract - rich in beta carotene, vitamins A, C, and E, and essential fatty acids that nourish and revitalize the delicate eye area. It supports skin elasticity and helps improve the appearance of fine lines and wrinkles by enhancing hydration and protecting against environmental stressors. Its antioxidant content helps maintain a balanced and refreshed complexion while promoting a smoother, more luminous under eye appearance.

INGREDIENTS:

Water, Argania Spinosa Kernel Oil, Butylene Glycol, Glycerin, Cetearyl Oliviate, Sorbitan Oliviate, Niacinamide, Phellinus Linteus Extract, Daucus Carota Sativa (Carrot) Root Extract, Sodium Hyaluronate, Inositol, Hydroxyacetophenone, Betaine, Ammonium Acryloyldimethyltaurate/VP Copolymer, Kigelia Africana Fruit Extract, Chlorphenesin, Tocopheryl Acetate, Boswellia Carterii Gum Oil, Glycine Soja (Soybean) Oil, Glycosyl Trehalose, Phenoxyethanol, Hydrogenated Starch Hydrolysate, Beta-Carotene, Tocopherol

CAUTIONS:

Warning: For external use only. Avoid direct contact with the eye. In the event of direct eye contact, rinse with cool water. Irritation, itching sensation and/or eye redness may occur. If irritation, inflammation or swelling occurs, discontinue product usage. If irritation persists or becomes severe, stop use and consult a physician. Keep out of reach of children.
