

NIGHT MOISTURIZER

DESCRIPTION

Viktoria DeAnn Night Moisturizer is a rich, age-defying formula designed to deeply hydrate, replenish, and restore the skin while you sleep. This semi-occlusive, non-greasy moisturizer forms a breathable protective layer that locks in moisture and reduces transepidermal water loss (TEWL) for optimal overnight recovery. Powered by phyto-moisture builders, it supports natural barrier reinforcement and enhances elasticity while diminishing the appearance of fine lines and wrinkles. Nourishing lipids from hazel and coconut deliver long-lasting hydration, and French Oak Extract provides potent antioxidant protection against environmental stressors.

TREATMENT STEP

 Protect

TEXTURE

Cream Moisturizer

PEPTIDE TYPE

N/A

LAYER LEVEL

N/A

SKIN TYPE

All Skin Types, especially dry & mature skin

KEY ACTIVES

Glycerin, Allantoin, Quercus Robur Extract (French Oak), Corylus Avellana Extract (Hazel Nut), Tocopheryl Acetate (Vitamin E)

FUNCTION

- Deeply hydrates and protects skin
- Minimizes TEWL to increase barrier function
- Assists in maintaining stratum corneum elasticity and health
- Soothes, calms and protects the skin
- Provides antioxidant protection

TARGETED SKIN CONCERNS:

- Oily or acneic skin
- Combination skin
- Dry or dehydrated skin
- Sun damaged skin
- Aging or mature skin
- Sensitive or compromised skin

THE SCIENCE:

Fatty acids play an essential biochemical role in maintaining the integrity and permeability balance of the stratum corneum, the skin's outermost barrier. As key components of the intercellular lipid matrix, alongside ceramides and cholesterol, fatty acids regulate transepidermal water loss (TEWL) by forming organized lamellar structures that prevent excess evaporation while allowing controlled moisture exchange. Their presence is vital for barrier cohesion, elasticity, and hydration retention, ensuring the skin remains supple and functionally resilient.

French Oak Extract contributes additional support through its rich concentration of polyphenols and ellagitannins, which exhibit potent antioxidant and anti-inflammatory properties. These molecules help stabilize barrier lipids by neutralizing reactive oxygen species that degrade structural proteins and fatty acids, thereby preserving the lipid matrix that governs TEWL. Together, fatty acids and French Oak Extract work synergistically to enhance the hydration of the stratum corneum, reinforce barrier function, and maintain an optimal microenvironment for cellular night time repair and renewal.

PROFESSIONAL USAGE:

Apply 2-3 pumps to face, neck and decollete as needed following the Cleanse and Restore phases of treatment.

HOME USAGE:

Apply 2-3 pumps to face, neck, and decollete (morning and evening) after Cleanse and Restore steps.

KEY ACTIVES:

Glycerin - a powerful humectant that draws moisture into the skin, helping to maintain lasting hydration and a smooth, soft texture. It supports the skin's ability to retain water, promoting a plump and refreshed appearance. Glycerin also helps improve the overall comfort and balance of the skin, making it feel nourished and well conditioned.

Allantoin - a well known skin conditioning agent that helps soothe and calm sensitive or stressed skin. It promotes a smoother appearance by supporting gentle surface renewal and by helping the skin retain hydration. Allantoin also supports skin softness and comfort, making it especially beneficial for dry or compromised skin. Its gentle nature allows it to be used in a wide range of skin types, promoting a calm, balanced, and refreshed look.

Quercus Robur Extract (French Oak) - derived from the oak tree, is a botanical antioxidant rich in minerals and coenzymes that help support the overall health and vitality of the skin. It offers protective benefits by helping to neutralize the effects of environmental stress and oxidative damage, which can contribute to dullness and fatigue. The natural compounds found in this extract help promote a balanced, revitalized appearance while supporting the skin's resilience and tone.

Corylus Avellana Extract (Hazel Nut) - derived from the hazel plant, offers superior moisturizing properties that help nourish and soften the skin while supporting long lasting hydration. Rich in natural fatty acids and antioxidants, it helps protect the skin from environmental stress and maintain a smooth, healthy appearance. This botanical extract supports the skin's natural barrier by locking in moisture and promoting a supple, balanced feel.

INGREDIENTS:

Aqua (Water), Quercus Robur (French Oak) Extract, Corylus Avellana (Hazel) Seed Oil, Cetyl Ethylhexanoate, Cetyl Alcohol, PEG-2 Stearate SE, Paraffinum Liquidum, Isopropyl Palmitate, Ethylhexyl Methoxycinnamate, Hydrogenated Coconut Oil, Triethanolamine, Cetareth-25, Serine, Allantoin, Lactic Acid, TEA-Lactate, Sodium Lactate, Propanediol, BHT, Glycerin, Sodium Stearate, Disodium EDTA, Sorbitol, Urea, Phenoxyethanol Diazolidinyl Urea, Iodopropynyl Butylcarbamate

CAUTIONS:

Warning: For external use only. Avoid direct contact with the eye. In the event of direct eye contact, rinse with cool water. Irritation, itching sensation and/or eye redness may occur. If irritation, inflammation or swelling occurs, discontinue product usage. If irritation persists or becomes severe, stop use and consult a physician. Keep out of reach of children.
