

AGING, FINE LINES & WRINKLES

Viktoria DeAnn products are designed to address the visible signs of aging through advanced multi-action peptide technology. These peptides help reduce the appearance of fine lines and wrinkles while supporting collagen and elastin production for firmer, smoother, and more resilient skin. With consistent use, the skin appears more lifted, refined, and rejuvenated, revealing a healthier, youthful-looking complexion.

COMMON SYMPTOMS

- Visible changes around the eyes, mouth, and forehead
- Loss of firmness and elasticity, leading to sagging or looser skin
- Thinning of the epidermis
- Skin appearing more fragile or translucent
- Dryness and rough texture
- Reduced oil production
- Slower cell turnover
- Dull or uneven tone
- Decreased volume and plumpness
- Slower healing
- Reduced resilience to environmental stressors
