SKIN CONDITION GUIDE

POOR OR UNEVEN TONE & ROUGH TEXTURE

Viktoria DeAnn's refining peptide formulations target uneven tone and rough texture by supporting healthy cellular renewal and improving surface uniformity. These advanced peptides work to smooth and polish the skin's appearance, helping reduce visible irregularities while promoting a more balanced, even complexion. With consistent use, skin becomes noticeably softer, clearer, and more refined, revealing a healthy, radiant glow and improved overall texture.

COMMON SYMPTOMS

- Blotchy or inconsistent skin tone, visible discoloration or dark spots
- Rough, bumpy, or coarse texture
- Lacking smoothness
- Enlarged pores or uneven surface appearance
- Dullness due to buildup of dead skin cells
- Slow cell turnover
- Scarring or post-inflammatory marks
- Loss of clarity and uniformity
- Decreased luminosity and lack of radiance
- Glycated looking skin
